

Adjustable and Re-useable Security Clamps for PCs and Towers

Loxitt's patented Cornerlox and Sidelox PC clamps offer a robust and cost effective solution to computer theft and vandalism in both the public and private sectors.

Competitively priced - protect twice as many computers for the same money as full enclosures.

Adjustable brackets - secure PCs and towers within wide height ranges to very tight tolerances.

Re-usable - When you come to change your computer simply relocate one of the brackets.

Increase Security - Those looking for higher security can through bolt the brackets to the desk using secret fixings.

Simple to install - Both sets of fixings and full instructions are included in the kit.

Quick installation - Using simple DIY skills your PC's can be secured in just minutes.

Cornerlox PC

110 -165mm high
code: 0191

11-17 PC

Cornerlox traps the PC by two diagonal corners

Sidelox PC

80-110mm high
code: 0181

110-165mm high
code: 0183

8-11 PC

Sidelox Tower

300-350mm high
code: 0185

350-400mm high
code: 0186

400-450mm high
code: 0187

450-500mm high
code: 0188

Adjustable tie bars for towers prevents the clamps being forced apart

Computer Height Range (mm)	code
Sidelox PC 8-11	0181
Sidelox PC 11-17	0183
Sidelox Tower 30-35	0185
Sidelox Tower 35-40	0186
Sidelox Tower 40-45	0187
Sidelox Tower 45-50	0188
Cornerlox PC 11-17	0191
