

A **simple and economical** way of securely tethering laptops in the office and on the move.

The Slot-lox can be **supplied as a complete kit or in component form.**

Able to **daisy chain** laptops onto one cable with a single padlock.

1 Align projecting tee into slot and insert

2 Turn whole unit through 90 degrees

3 Slide outer prongs into slot

4 Secure by passing padlock hasp through cable and Slot-lox

**Slotlox including cable and padlock** - keyed alike or keyed to differ.  
**Slotlox widget only** - use your own cables and locks.
