

Extendable boom shown with optional n-circle security clamp and heavy duty cable kit.

Stub boom with wall plate and "C" section extension boom

The robust 80mm x 40 mm steel "C" section boom has a 3mm steel backing plate with 6nr 14mm diameter holes for substantial fixings.

the "C" section extension boom adjusts in length to achieve the optimum focal position between 1800mm and 2350mm.

The boom kit includes a 3mm steel cable safety stop which can be attached to the structure directly above the boom or to the wall.

Kit does not include universal adapter plate, sold separately.

Universal projector adapter plate

The universal adapter plate is suitable for most modern projectors.

The kit comes complete with 4 swing arms, horizon adjustment bracket, dip angle bracket and fittings.

Long boom 1800mm - 3000mm
Standard boom 1450mm - 2350mm
Universal adapter plate
